

WETSUITS

W8

NEOFLEX
5mm | 7mm

A super-stretch front-zip wetsuit for the demanding diver. Swedish cutting-edge design with all the high-end features and characteristics of a Waterproof suit. Extremely soft and flexible with comfortable four-way super-stretch neoprene and high-performance fit.

W8 NEOFLEX

HIGH PERFORMANCE FRONT-ZIP WETSUIT

Newly designed, high-performance wetsuit. Similar design and fit as our W7 wetsuit but equipped with front-zip instead of back-zip. Swedish cutting-edge design with all the high-end features and characteristics of a Waterproof suit. W8 is, as all models in our Neoflex series, made of extremely soft, flexible and comfortable four-way super-stretch neoprene. The W8 is also equipped with the WaterDam, our unique solution that prevents water of streaming down your neck and spine when moving your head. Our double Zipper Seal System behind the front zipper reduces the water flow through the suit to a minimum. Double seals with zippers at arms and legs adds comfort and easy donning/doffing. The thermal lining makes the suit soft, warm and comfortable.

The suit is equipped with two anchor-straps with anti-slip for your computer, tough Duratex panels on seat, elbows and knees for abrasion protection, anti-slip surfaces over the shoulder and waist and our new designed soft Aramid (Kevlar®) kneepads. The two streamlined, easy to use and flexible pockets has space to hold a spare mask, SMB, deco tables or other things you might want to bring. All zippers are equipped with EasyGrip for easy opening and closing. W8 has the same elegant black and grey colour scheme as the other models in the Neoflex series, colours that makes a great combination with all your other dive gear. Our Neoflex series is manufactured with the best high-grade materials and technologies available – for maximized durability and extended use.

MATERIAL · Neoflex super-stretch, 100 % microcell limestone CR neoprene. More expensive, but in fact the best you can get on the market. Excellent durability, memory and insulation, far better than other neoprene qualities.

SEAMS · Glued and blind stitched with bonded high quality nylon thread.

ANATOMICAL FIT · 3D sculpted suit for maximum anatomical fit. All critical parts concerning mobility, like pre-bent arms and legs have been specifically designed to enhance the freedom of movement.

GENDER · Gender-specific styling – Provides comfortable lift and support for the female diver.

ANTI-SLIP · Polyurethane print on waist for keeping your weight belt in place.

WAVE FLEX PANELS · In hollow of arms and legs wave flex panels provides an easier movement.

EASY GRIP · Newly designed zipper-puller offers a secure grip with, or without gloves.

MOLDED VELCRO TABS · TPE tab with moulded Velcro hooks, for tightening and adjusting the collar, sticks only to the assigned Velcro part.

PLASTIC-FREE PACKAGING · 100% plastic-free packaging in accordance with our vision of no more plastic in the oceans.

Men: XS, S, M, ML, L, XL, XXL, M/+, L/+, S/t, M/t, ML/t, L/t, XL/t, XXL/t, 3XL/t+

Ladies: XS, S, M, ML, L, XL, XXL, M/+, L/+, M/t, ML/t, L/t

W8 Men 5mm: Art. No. 080-1

W8 Ladies 5mm: Art. No. 080-2

W8 Men 7mm: Art. No. 081-1

W8 Ladies 7mm: Art. No. 081-2

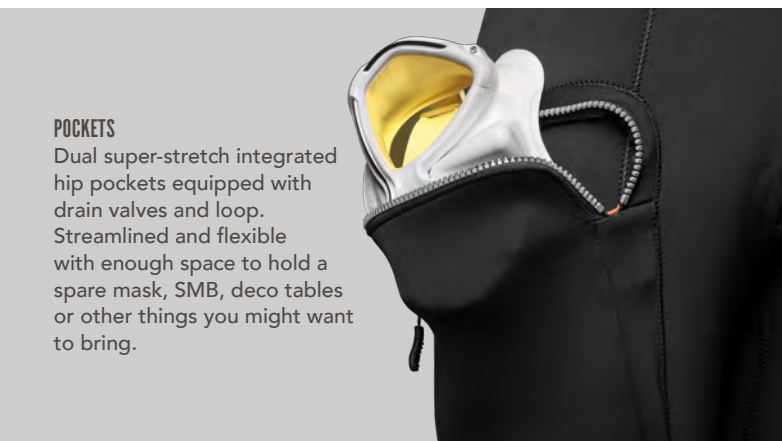

FRONT-ZIP

High-quality YKK #10 Vislon zipper with corrosion free slider. Provide consistent ease of operation and hard-core durability. The opening is positioned at the side of the neck to enhance comfort and flexibility.

SPINE PAD

Contoured spine pad for additional protection to the kidney and spine area. Thickness 10 to 12 mm.

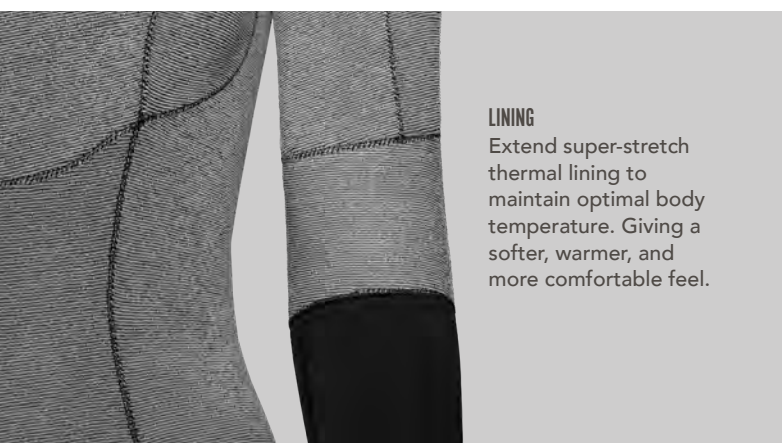

POCKETS

Dual super-stretch integrated hip pockets equipped with drain valves and loop. Streamlined and flexible with enough space to hold a spare mask, SMB, deco tables or other things you might want to bring.

DOUBLE ZIPPER SEAL

An advanced solution with wide double seal panels behind the front zipper to minimize the water flow and create warmth.

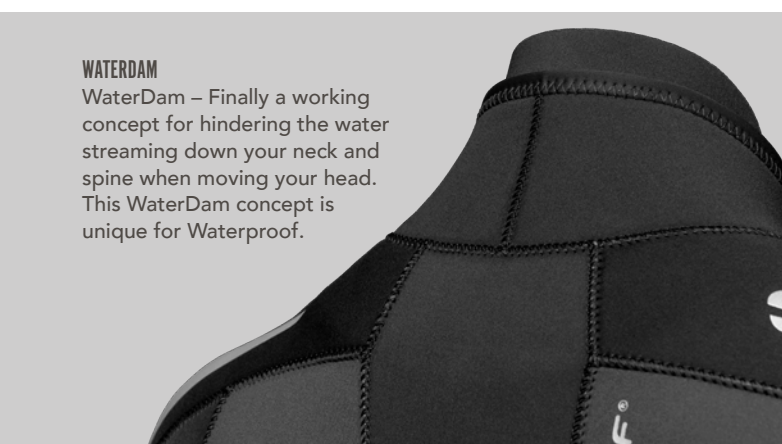

LINING

Extend super-stretch thermal lining to maintain optimal body temperature. Giving a softer, warmer, and more comfortable feel.

KNEE PADS

DuPont™ Kevlar® (Aramid) and Duratex reinforced knee pads. Strengthens a critical area of the suit while remaining soft and flexible.

WATERDAM

WaterDam – Finally a working concept for hindering the water streaming down your neck and spine when moving your head. This WaterDam concept is unique for Waterproof.

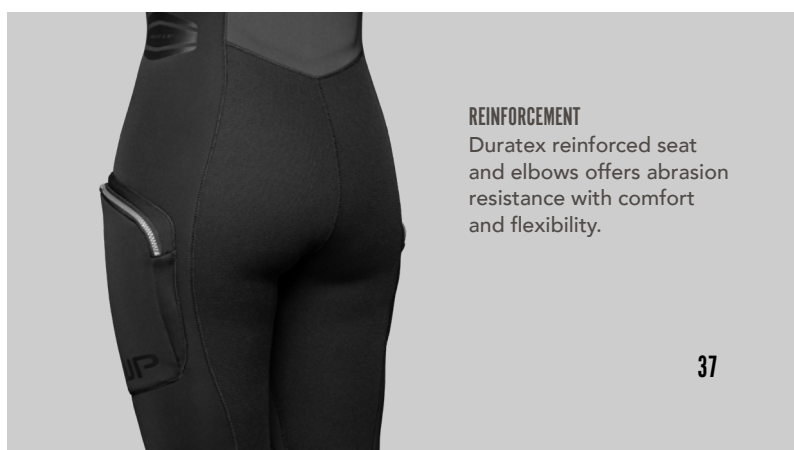

COMPUTER STRAP ANCHOR

To prevent the computer from slipping off your arm when gloves are removed or suit is compressed, the anti-slip surface makes it stay in place.

WRIST AND ANKLES

Generous double seals made from super-stretch glide skin neoprene with zipper at wrists and ankles. YKK #10 Vislon zipper features 100 % corrosion free slider with an anti-slip designed ZipGrip.

REINFORCEMENT

Duratex reinforced seat and elbows offers abrasion resistance with comfort and flexibility.

W7

NEOFLEX
5mm | 7mm

A super-stretch back-zip wetsuit for the demanding diver. Swedish cutting-edge design with all the high-end features and characteristics of a Waterproof suit. Extremely soft and flexible with comfortable four-way super-stretch neoprene and high-performance fit.

W7 NEOFLEX

THE EVOLUTION OF A WINNING CONCEPT

Our Double Zipper Seal system behind the back zipper reduces the water flow through the suit to a minimum. Double seals with zippers at wrist and ankles add comfort and easy donning/doffing. Our thermal lining adds a softer, warmer and more comfortable feel. The new stretchy heat molded kneepads in Aramid (Kevlar®) fabric surrounded by Duratex, is extremely durable and comfortable. The suit is equipped with a tough Duratex seat for abrasion protection and anti-slip surfaces over the shoulder and waist. The W7 has two streamlined, easy to use and flexible pockets with enough space to hold a spare mask, SMB, deco tables or other things you might want to bring. It also comes with two computer strap anchors with anti-slip for your computer and zippers are equipped with EasyGrip puller for easy opening and closing.

A detachable neck seal that can be selected as an option to this suit. This seal eliminates the water flow and is a very welcome feature, especially when diving without a hood. The elegant black and grey colour scheme makes a great combination with all your other dive gear. W7 is manufactured with the best high-grade materials and technologies available for maximized durability and extended use. At Waterproof we believe in making products that last, as this is the most powerful incentive for minimizing our impact on the environment.

MATERIAL · Neoflex super-stretch, 100 % microcell limestone CR neoprene. More expensive, but in fact the best you can get on the market. Excellent durability, memory and insulation, far better than other neoprene qualities.

SEAMS · Glued and blind stitched with bonded high quality nylon thread.

BACK-ZIP · High-quality YKK #10 Vislon zipper with stainless steel slider. Provide consistent ease of operation and hard-core durability to keep the suit together for many years.

ANATOMICAL FIT · 3D sculpted suit for maximum anatomical fit. All critical parts concerning mobility, like pre-bent arms and legs have been specifically designed to enhance the freedom of movement.

GENDER · Gender-specific styling – Provides comfortable lift and support for the female diver.

01

NEOFLEX

A hooded vest providing extra warmth and comfort. Swedish cutting-edge design with all the high-end features and characteristics of a Waterproof suit. Extremely soft and flexible with comfortable four-way super-stretch neoprene and high-performance fit.

01 NEOFLEX

A MEMBER OF OUR NEW NEOFLEX SERIES

A 5mm hooded vest providing extra warmth and comfort to your diving. Extremely soft and flexible due to the comfortable four-way super stretch neoprene. It features a front-zip and a fixed 7mm ventilated hood. O1 is a member of our new Neoflex series, a great complement to be worn on top of your regular wetsuit during cold dives.

The inverted front zipper ends on the chest to achieve a closed face seal, free from an annoying zipper. This solution makes the hood more comfortable. The O1 vest has a detachable beaver tail with double Velcro locks. Thermal lining adds a softer, warmer and more comfortable feel. Anti-slip surfaces at shoulders and waist keeps the BCD and weight belt in place. The zipper is equipped with an EasyGrip puller for easy opening and closing.

The elegant black colour makes a great combination with all your other dive gear. O1 is manufactured with the best high-grade materials and technologies available – for maximized durability and extended use.

MATERIAL - Neoflex super-stretch, 100 % microcell limestone CR neoprene. More expensive, but in fact the best you can get on the market. Excellent durability, memory and insulation, far better than other neoprene qualities.

SEAMS - Glued and blind stitched with bonded high quality nylon thread.

LINING - Extend super-stretch thermal lining to maintain optimal body temperature. Giving a softer, warmer, and more comfortable feel.

FRONT ZIP - High-quality YKK #10 Vislon zipper with corrosion free slider. The inverted front zipper ends on the chest to create a comfortable and tight face seal and makes it easier to move the head.

HOOD - 3D shaped hood with 7mm double layered protection in critical heat loss areas and a glideskin face seal. Including the unique HAVS (Hood Air Venting System) which uses oneway valves to vent annoying air build-up in the hood.

ANATOMICAL FIT - 3D sculpted for maximum anatomical fit.

GENDER - Gender-specific styling – Provides comfortable lift and support for the female diver.

ANTI-SLIP - Polyurethane print on waist for keeping your weight belt in place.

BEAVER TAIL - To keep your vest in place. Detachable with double Velcro locks.

PLASTIC-FREE PACKAGING - 100% plastic-free packaging in accordance with our vision of no more plastic in the oceans.

Men: XS, S, M, ML, L, XL, XXL, S/t, M/t, ML/t, L/t, XL/t, XXL/t, M/+, L/+, 3XL/t+

Ladies: XS, S, M, ML, L, XL, XXL, M/t, ML/t, L/t, M/+, L/+

HOOD

3D shaped hood with 7mm double layered protection in critical heat loss areas and a glideskin face seal. Including the unique HAVS (Hood Air Venting System) which uses one-way valves to vent annoying air build-up in the hood.

ANTI-SLIP

Polyurethane print on waist for keeping your weight belt in place.

FRONT ZIP

High-quality YKK #10 Vislon zipper with corrosion free slider. The inverted zipper ends on the chest to create a comfortable and tight face seal and makes it easier to move the head.

LINING

Extend super-stretch thermal lining to maintain optimal body temperature. Giving a softer, warmer, and more comfortable feel.

ANATOMICAL FIT

3D sculpted for maximum anatomical fit.

BEAVER TAIL

To keep your vest in place. Detachable with double Velcro locks and fasteners.

W5

3.5mm ACTIVE PERFORMANCE

The W5 has been designed to set new standards in performance and style. All packed into a smart and stylish Scandinavian design for the diver who demand the best and not afraid to show it.

The W5 includes all the features you have come to expect in every Waterproof product like high quality material and anatomical fit. It is made of high stretch nylon/elastane with 100% Microcell CR neoprene, glued and blind stitched.

Additionally, it includes all the features from our heavier lines like a comfort zipper in the neck, flow guards with double seals in the wrists and ankles and embossed heat molded Duratex flexible kneepads and elbow protectors. At times we are told that our suits are too warm and excessively well-built. We are willing to live with that kind of criticism.

BACK-ZIP

High-quality YKK #10 Vislon zipper with stainless steel slider. Provide consistent ease of operation and hard-core durability to keep the suit together for many years.

WPAD™

The Waterproof Personal Accessory Dock, is an artfully constructed docking station used for attaching our expandable pocket.

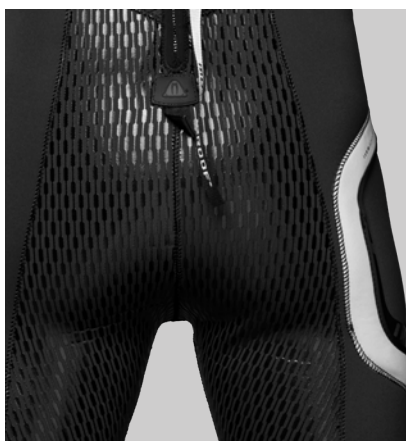

WRIST AND ANKLES

Flowguard double seals at wrists and ankles for comfort and restricting water flow. YKK #10 Vislon zipper features 100 % corrosion free slider. For easy donning and doffing of the suit.

REINFORCEMENT

3D shaped Duratex reinforced elbows with comfort and flexibility. Polyurethane print on shoulders and seat provides a non-slip grip and integrated abrasion protection.

KNEE PADS

Embossed Duratex reinforcements at knees and elbows. Soft and flexible.

ANTI-SLIP

Polyurethane print on sleeves for keeping your computer in place.

MATERIAL - Super-stretch, 100 % microcell limestone CR neoprene. More expensive, but in fact the best you can get on the market. Excellent durability, memory and insulation, far better than other neoprene qualities.

SEAMS - Glued and blind stitched with bonded high quality nylon thread.

ANATOMICAL FIT - 3D sculpted suit for maximum anatomical fit. All critical parts concerning mobility, like pre-bent arms and legs have been specifically designed to enhance the freedom of movement.

GENDER - Gender-specific styling – Provides comfortable lift and support for the female diver.

WAVE FLEX PANELS - In hollow of arms and legs wave flex panels provides an easier movement.

MOLDED VELCRO TABS - TPE tab with moulded Velcro hooks, for tightening and adjusting the collar, sticks only to the assigned Velcro part.

PLASTIC-FREE PACKAGING - 100% plastic-free packaging in accordance with our vision of no more plastic in the oceans.

W50 AND W80

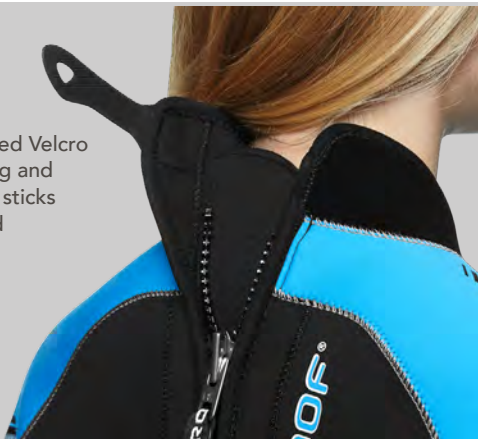

FULL-SUIT IN STRETCHY NEOPRENE WITH WPAD™

The WATERPROOF W50 and W80. Developed due to the great demand for comfortable and warm, yet highly flexible wetsuits. They share many of the characteristics that have become synonymous with the Waterproof brand. Excellent fit, highly comfortable and stylish.

The 5mm W50 is recommended for tempered waters while the 8mm W80 provides warmth in lower tempered waters. Both well suited for recreational divers that wish to stay comfortably warm. The Ultraflex 100% CR neoprene featured in the W50/80 assure a snug fit with minimal water flow, while maintaining a high amount of stretch, making them suitable for a wide variety of body shapes.

MOLDED VELCRO TABS

TPE tab with moulded Velcro hooks, for tightening and adjusting the collar, sticks only to the assigned Velcro part.

REINFORCEMENT

Polyurethane print on shoulders and seat provides a non-slip grip and integrated abrasion protection.

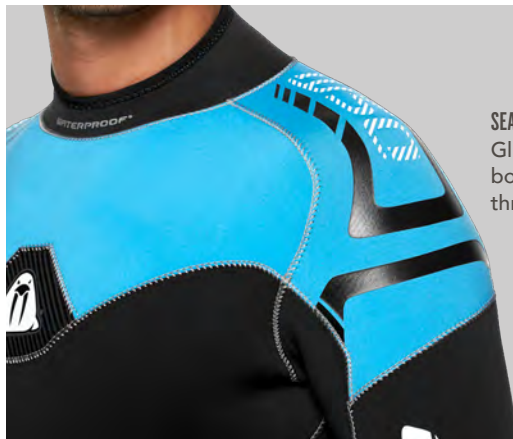

MATERIAL

Ultraflex high stretch 100% CR neoprene with spandex makes the suit extremely comfortable and easy to don and doff.

SEAMS

Glued and blind stitched with bonded high quality nylon thread.

KNEE PADS

Very strong abrasion resistant Toughtex fabric on knees.

WPAD™

The Waterproof Personal Accessory Dock, is an artfully constructed docking station used for attaching our expandable pocket.

BACK-ZIP · Hi-quality YKK #10 Vislon zipper with stainless steel slider. Panels around the zipper are oversized and reinforced to keep the suit together for many years.

ANATOMICAL FIT · 3D sculpted suit for maximum anatomical fit. All critical parts concerning mobility, like pre-bent arms and legs have been specifically designed to enhance the freedom of movement.

GENDER · Gender-specific styling – Provides comfortable lift and support for the female diver.

WRIST AND ANKLES · Zippered legs with high-quality YKK #10 Vislon zipper features 100 % corrosion free slider. For easy donning and doffing of the suit.

ANTI-SLIP · Polyurethane print on sleeves for keeping your computer in place.

PLASTIC-FREE PACKAGING · 100% plastic-free packaging in accordance with our vision of no more plastic in the oceans.

W30

2.5mm SPORT SERIES

To keep all the divers and multi-sporters happy in warmer waters we created the Waterproof Sport Series. High quality suits in Aquatex stretchy and comfortable 2.5mm neoprene with a snug fit and easy to don and doff. The Waterproof W30 full-suit features a unique and clever gadget, the WPAD™.

The WPAD™, or the Waterproof Personal Accessory Dock, is an artfully constructed docking station located on the right hip for attaching our expandable pocket. As a disclaimer we must confess that the W30, unfortunately, suffers from the same ailments as our standard collection, it looks smart and it is well constructed, the fit is excellent, and it is probably too comfortable as well. Unfortunately, we can't help but produce our suits this way.

BACK-ZIP

High-quality YKK #10 Vislon zipper with stainless steel slider.

GENDER

Gender-specific styling provides comfortable lift and support for the female diver.

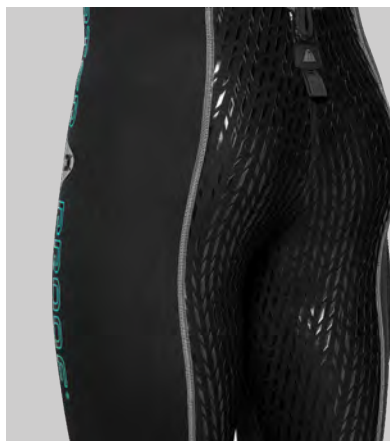

WPAD™

The Waterproof Personal Accessory Dock, is an artfully constructed docking station used for attaching our expandable pocket.

REINFORCEMENT

Polyurethane print on shoulders and seat provides a non-slip grip and integrated abrasion protection.

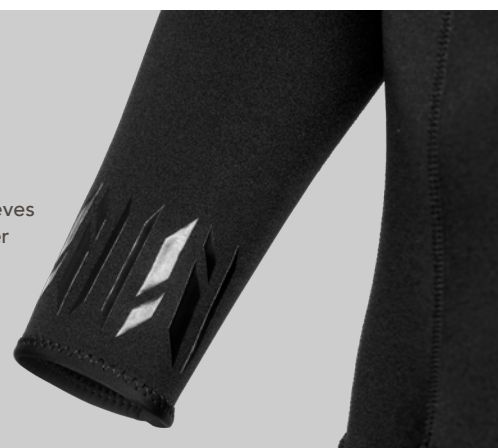

KNEE PADS

Polyurethane print on knee pads for enhanced grip and abrasion resistance.

ANTI-SLIP

Polyurethane print on sleeves for keeping your computer in place.

MATERIAL - Aquatex stretchy neoprene makes the suit extremely comfortable and easy to don and doff.

SEAMS - Flatlock seams with bonded high quality nylon thread.

ANATOMICAL FIT - 3D sculpted suit for maximum anatomical fit. All critical parts concerning mobility, like pre-bent arms and legs have been specifically designed to enhance the freedom of movement.

MOLDED VELCRO TABS - TPE tab with moulded Velcro hooks, for tightening and adjusting the collar, sticks only to the assigned Velcro part.

PLASTIC-FREE PACKAGING - 100% plastic-free packaging in accordance with our vision of no more plastic in the oceans.

WPSKIN

SUPER-STRETCH LYCRA

Is the water too warm for a regular wetsuit but you're still in need of sun- and rash protection? Then this is an excellent overall dive skin for you. In addition – if you struggle to get your wetsuit on, the problem is solved with WPSKIN. A full rashguard suit in super-stretch Lycra makes donning your wetsuit easy. The WPSKIN offers 50+ UPF (Ultraviolet Protection Factor) which blocks out over 98% of the sun's harmful rays.

MATERIAL - Super-stretch spandex/Lycra. Ultraviolet protection factor 50+. Protection in warm water from sun and possible jellyfish (or other nasties!).

SEAMS - Flatlock seams with high quality polyester and nylon thread.

BACK-ZIP - High-quality YKK #5 Vislon zipper with 100% stainless steel slider.

ANATOMICAL FIT - Super stretchy – fits all body shapes.

GENDER - Gender-specific styling – Provides comfortable shapes for the female diver.

WRIST AND ANKLES - Thumb and foot loops.

PLASTIC-FREE PACKAGING - 100% plastic-free packaging in accordance with our vision of no more plastic in the oceans.

Men: 3XS-XXS, XS-S, M-ML, L-XL, XXL-3XL
Ladies: 3XS-XXS, XS-S, M-ML, L-XL, XXL-3XL

WPSKIN Ladies: Art. No. 310-2

NEOSKIN

SUPER-STRETCH AND SUPER-SOFT

This 1mm thick Neoskin made of neoprene is completely wind and splash-proof, softer and more flexible than a wetsuit. Protects you from sun and possible jelly-fish (or other nasties!). A flexible, smooth interior fabric makes the Neoskin easy to don and doff.

MATERIAL - Super-stretch and super-soft 1 mm neoprene. Protects from wind and splash.

SEAMS - Flatlock seams with high quality nylon thread.

BACK-ZIP - High-quality YKK #5 Vislon zipper with 100% stainless steel slider.

ANATOMICAL FIT - Super stretchy – fits all body shapes.

GENDER - Gender-specific styling – Provides comfortable shapes for the female diver.

WRIST AND ANKLES - Thumb and foot loops.

SEAM-FREE CROTCH - The crotch is made in one piece, no seams. This to ensure an excellent durable and comfortable suit.

PLASTIC-FREE PACKAGING - 100% plastic-free packaging in accordance with our vision of no more plastic in the oceans.

Men: 3XS, XXS, XS, S, M, ML, L, XL, XXL, 3XL
Ladies: 3XS, XXS, XS, S, M, ML, L, XL, XXL, 3XL

INSPIRED TO INSPIRE

Every day we get to experience the passion and joy for diving, our oceans, and the amazing underwater world through the eyes of you, the diver. Now, our mission is to enable you to get as inspired as we get by you. Therefore, we created #generationWP, a Social Media Community where all WP divers can share their beautiful and mysterious adventures with each other both below and above the surface. You're welcome.

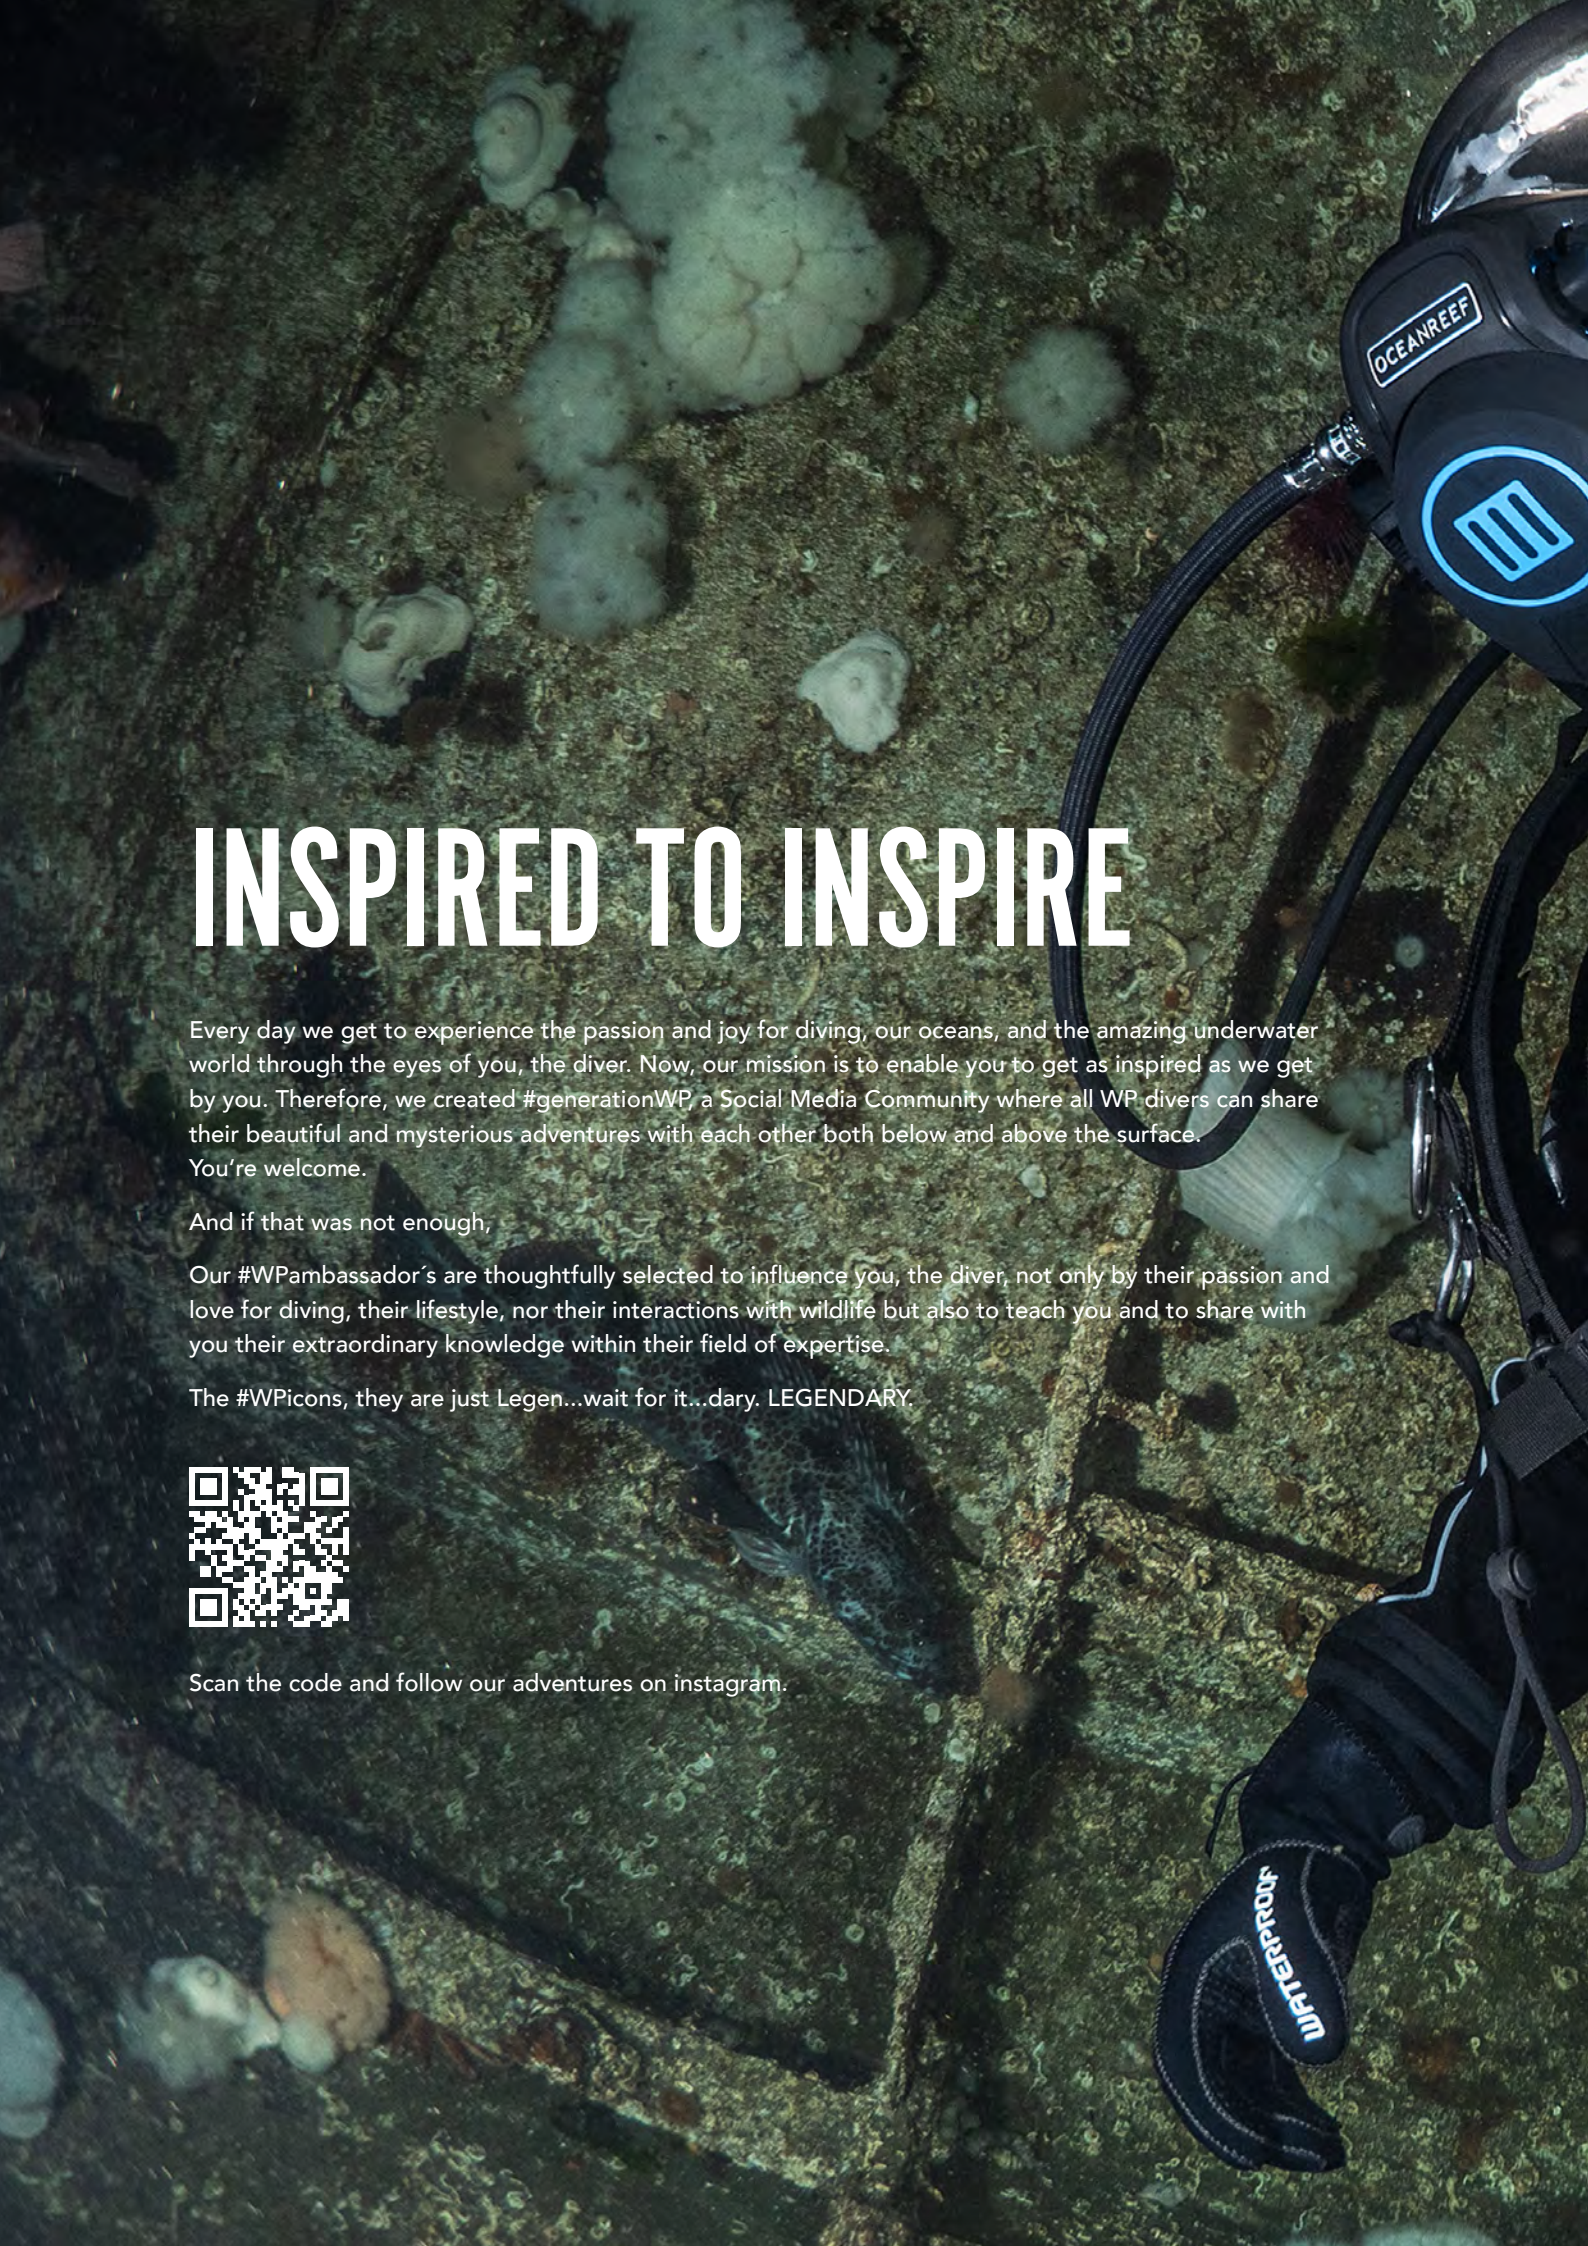

And if that was not enough,

Our #WPambassador's are thoughtfully selected to influence you, the diver, not only by their passion and love for diving, their lifestyle, nor their interactions with wildlife but also to teach you and to share with you their extraordinary knowledge within their field of expertise.

The #WPicons, they are just Legen...wait for it...dary. LEGENDARY.

Scan the code and follow our adventures on instagram.

OCEANIC

“OUR VALUES ARE GUIDED BY THE BELIEF THAT QUALITY IS THE STRONGEST PATH TO SUSTAINABILITY”

At Waterproof we make products that enable people to witness the impacts of climate change in our oceans. From the front row, divers are presently and constantly seeing our oceans die, step by step and all over the world. It is a fact we can't hide from. Sustainability is therefore always our main priority!

Most of our suits and accessories are manufactured out of Limestone neoprene which has the lowest carbon footprint in modern wetsuit and drysuit production. The use of limestone neoprene is an effort to make wetsuits as green as possible. Neoprene is extremely durable and a well-designed diving suit will last for years, or in many cases, decades.

The “eco-friendly” alternatives to neoprene currently on the market are not ideal from our point of view. With them, you will get an inferior product with short durability. This is leading to overconsumption, which we don't consider true sustainability and therefore not an option.

We are well aware that neoprene is an imperfect solution. But at the moment, neoprene is still more sustainable than the alternatives. We need to get away from the disposable product mentality and the short life of products worldwide – and move towards a more sustainable production and development of materials.

At Waterproof we believe in making products that last, as this is the most powerful incentive for minimizing our impact on the environment.

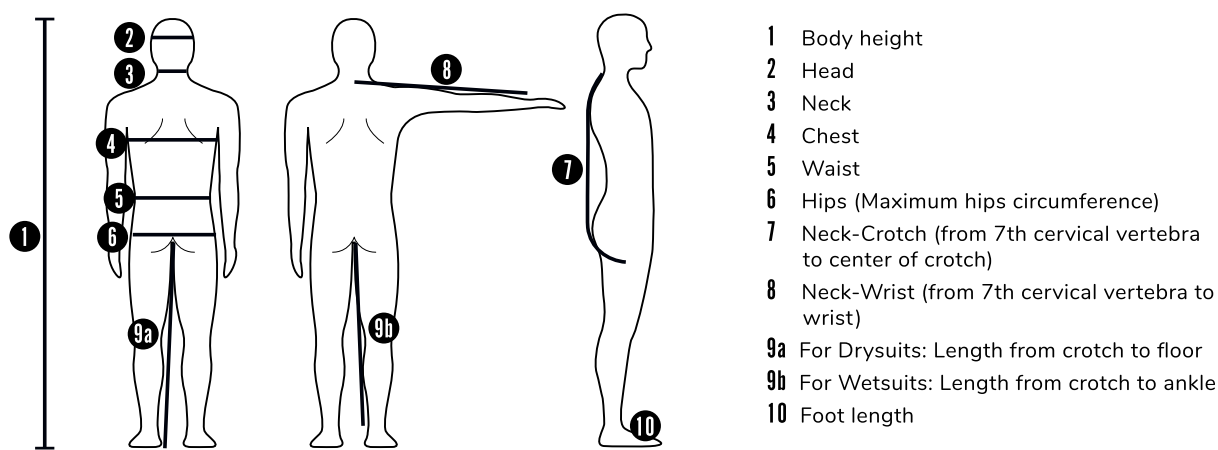

- We actively choose not to support the disposable product mentality.
- We source our materials with great care and only choose the best quality, ensuring a long lifespan of our products.
- We are removing all single-use plastics from our packaging.
- We choose our factories carefully, based on environmental considerations.
- We have a global service organisation working with repairs and maintenance.

HOW TO CHOOSE THE CORRECT SIZE OF YOUR SUIT

1. ASK SOMEONE TO TAKE YOUR BODY MEASUREMENTS

When taking your measurements, it is important that you stand up straight and that you keep the measuring tape as close to the body as possible. See next page for information on how to measure and write down your measurements.

2. CHECK THE SIZE CHARTS AND CHOOSE THE CHART THAT CORRESPONDS BEST TO YOUR MEASUREMENTS. STANDARD, PLUS, TALL OR TALL/PLUS.

To ensure accuracy, check more than one size chart.

3. MARK YOUR MEASUREMENTS IN THE SIZECHART.

See the examples on the next page.

4. CHOOSE YOUR SIZE.

Choose a size that approximates the average of all your measurements. It is normal for your measurements to be spread out throughout different sizes. Our suits have enough allowance and range of motion to accommodate these variations. Soft bodyparts like the belly can be "compressed" a bit while head and neck measurements are not as important on a suit.

If you're buying a drysuit it is important to take into consideration the thickness of the undergarment you usually wear. If you wear very thick undergarments you might want to consider a larger size for comfort. If you are unsure about what size to choose please contact your dealer.

5. CHECK IF THE SUIT IS AVAILABLE.

Look the suit up in the catalog and check if it is available in your size.

DISCLAIMER

Size really matters! Despite similarities in measurements or weight, every person's body is unique. Our size chart is a good starting point to estimate your size but because a wetsuit should really fit like a second skin, we highly recommend that you visit an authorized dealer to ensure a perfect fit. Although all our dry suits have a generous cut that allows plenty of room to comfortably fit a standard undersuit, the different thicknesses of different undergarments designed for various environments needs to be taken into account. The best way to achieve the perfect sizing is to test your dry suit with your own personal undersuit to make sure it fits perfectly. We advise specifically against buying from other sources. It is better to be safe than sorry, so please seek support from your local dealer.

EXAMPLE 1: MEN’S WETSUIT

Richard most likely fits in both the ML and L sizes.
But as he explains, "I'm broad-shouldered, and when I buy clothes they are usually tight over the shoulders and back, so I opt to buy the larger of the two alternatives, or the size Large". The larger measurements on hips and neck-to-wrist are ok on either the ML or L sizes because a wetsuit is very stretchable.

MEN STANDARD											(cm)		Richard's measurements
