

BODY X

AND BODY 2X

When designing the BODY X and BODY 2X, we were inspired by the structure of the fur of a polar bear living under extreme environmental conditions. BODY X and BODY 2X are made of a hollow fiber polyester fleece. It insulates far better than a regular fiber due to being hollow and filled with air. It is a material that achieves high thermal insulation without increasing weight.

It's all about keeping warm and dry! This technically advanced fabric also has excellent moisture-wicking properties. It is designed to pull moisture away from the skin, by capillary action, and out to the exterior of the fabric where it can evaporate easily. The combination of hollow fiber insulation and excellent moisture wicking properties creates an extremely warm and comfortable undergarment.

We are all different. We react different to heat and cold, activity and rest. That's why we offer you to choose from different sizes and thicknesses for the upper and lower body. 285 g/m² (BODY X) or 665 g/m² (BODY 2X). You can choose any combination you like. Available as top and leggings.

Our new undergarment series also includes a super warm, one-piece option. The one-piece suit is made of 665 g/m² fabric, featuring a zippered chest pocket, smooth collar and a YKK front zipper. The one-piece suit is also prepared for heating system cable.

BODY X AND BODY 2X

POWER STRETCH HOLLOW FIBER UNDERGARMENT

MATERIAL · Newly developed power-stretch hollow fiber fleece undergarment of 90% Polyester and 10 % Elastane.

HOLLOW FIBER · Far better insulation than a regular fiber due to being hollow and filled with air, optimize the body climate.

WICKING · Excellent wicking properties pulling moisture away by capillary action, keeping the body dry.

ANTI-PILLING · Highly pill resistant brushed fabric. Tested according to ASTM D 3512. Grade 4.0.

THICKNESS · Available in two thicknesses: 285 g/m2 (BODY X) and 665 g/m2 (BODY 2X, One-piece).

ATOMICAL FIT · Designed for maximum anatomical fit. Gusseted crotch and armpit, slim waist with cord and extended tail enhance comfort and freedom of movement.

POCKETS · Chest pocket with YKK coil zipper and EasyGrip puller. (Body 2X One-piece)

SNUG-FIT · Single layer fabric around wrists and ankles makes it easier to don and doff your suit.

OPTIONS · Preinstalled outlets for Pee Valve hose on both legs. Preinstalled outlet for heating system cable.

PLASTIC-FREE PACKAGING · 100% plastic-free packaging in accordance with our vision of no more plastic in the oceans.

BODY X SOCKS

HOLLOW FIBER FLEECE SOCKS

Highly functional power stretch hollow fiber fleece material for an optimal body climate. The combination of hollow fiber insulation and excellent moisture wicking properties creates an extremely warm and comfortable sock.

*90% Polyester and 10 % Elastane / 285 g/m2 / Hollow fiber / Anti-pilling
Flat locked / Excellent wicking*

Unisex: XXS, XS, S, M, ML, L, XL, XXL, 3XL
Art. No. 628-0

When designing the BODY X and BODY 2X, we were inspired by the structure of the fur of a polar bear living under extreme environmental conditions.

ZIPPER
YKK coil zipper with EasyGrip.
(Body 2X One-piece)

SMOOTH COLLAR
Low profile fleece neck provides good insulation of the neck and a perfect fit to the neck seal.

WRIST AND ANKLES
Thumb and foot loops for easier donning of the suit.

MODULARITY
Freedom of choice, available as top, leggings. You can choose different size and thickness for upper and lower body.

OPTIONS
Preinstalled outlets for Pee Valve hose on both legs. Preinstalled outlet for heating system cable.

GENDER
Gender-specific styling designed to provide comfort for both female and male divers.

MESHTEC 3D

3D INSULATING UNDERGARMENT

The two-piece MeshTec 3D undergarment constructed with a stretchy 3mm mesh has a snug fit for easy donning. The mesh does not compress so the air in the drysuit will flow freely, this keeps the moist out and creates an even temperature around the body with no separate cold spots. It will help you stay warmer and more comfortable than you have ever experienced.

CONSTANT INSULATION VOLUME - The nylon springs in the 3D mesh fabric keep the inner and outer layer apart under pressure, creating a constant insulating volume.

LONG TAIL - The sweater is extra-long in the back to avoid gaps and gives double padding and insulation at the weight belt position.

WRIST AND ANKLES - Thumb and foot loops for easier donning of the suit.

Men: XS, S, M, ML, L, XL, XXL, 3XL/t+

Ladies: XS, S, M, ML, L, XL, XXL

MeshTec 3D Men Top: Art. No. 486-1

MeshTec 3D Ladies Trousers: Art. No. 487-2

3D MESH VEST

SUPER INSULATED CONSTANT VOLUME VEST

The Waterproof 3D Mesh Vest has double layers of 3mm stretchy 3D mesh and extra support of 5mm, 70 Denier 3D Mesh. This provides an 11mm thick "air bubble" of constant volume insulation around the front and back of the entire torso. It gives cool ventilation on the surface and super insulation when submerged. It zips at the front with a YKK #5 zipper.

DUAL LAYERS OF 3D MESH - The side and shoulder panels have double layers made of soft and stretchy 3mm 3D Mesh. Comfortable and adjusts to different body shapes.

TRIPLE LAYER 3D MESH - Three layers of super-insulating constant volume 3D Mesh in the front and back panels. A total thickness of 11mm. The mid layer has a stronger 70 Denier 3D Mesh.

YKK ZIPPER - High-quality YKK # 5 Vislon zipper.

Men: XS, S, M, ML, L, XL, XXL, 3XL/t+

Ladies: XS, S, M, ML, L, XL, XXL

3D Mesh Vest Men: Art. No. 430-1

3D Mesh Vest Ladies: Art. No. 430-2

Developed from the Waterproof patented 3D Mesh lining in the D1X Hybrid drysuit. This MeshTec 3D two-piece undergarment enables all divers, regardless of drysuit brand or type, to experience the remarkable warm and dry feeling this exceptional material offers. The two-piece MeshTec 3D undergarment constructed with a stretchy 3mm mesh has a snug fit for easy donning.

This unique thermal Mesh Vest derives from the patented D1X ISS Hybrid suit. The extraordinary performance 3D Mesh Vest features triple-layer insulation in front of the torso and spine pad. It includes an extra-long back panel that covers the kidneys and the panels that are normally squeezed by the weight belt.

WATERPROOF CRUISES & EXPEDITIONS

"We've spent a lifetime exploring our blue planet above and below the oceans. Diving and Snorkeling is in our DNA and we love to share our passion for the oceans with all divers and adventurous snorkelers. We believe travelling to the world's most remote locations on board a small expedition ship offers life-changing experiences. It gives great flexibility and the possibility to offer expedition activities to everyone's liking. You wake up in a new location each day and get to explore the most unique places both above and below the surface to see nature and wildlife up close. For those wanting to push boundaries and indulge their unique interests, you came to the right place.

Join our unique adventures above and below the surface, from the polar seas to the tropical oceans. It's your dream, we take you there!"

Marlynda Elstgeest, CEO & Co-founder of Waterproof Cruises & Expeditions

Waterproof Cruises & Expeditions is an expert in unique small ship expedition cruises. Go cruising along the shores of Svalbard, polar diving in Antarctica, swim with Humpback whales in Tonga or snorkel with Orcas in Northern Norway. That's what Waterproof Cruises & Expeditions is all about, the combination of cruising, wildlife and incredible underwater exploration.

T30 LADIES

NEOPRENE SHORTS AND TOP

Bermuda neoprene shorts and top for the active water sport fan. Sitting on boats, rafts or on a jet ski you will appreciate the anti-slip coating and the extra padding these 1.5mm shorts gives you. In addition, the extra insulation from the shorts and top gives protection to some very sensitive parts of your body. Use the shorts and top as extra protection under your wetsuit or when playing around on the beach or in the pool.

1.5mm super-stretch neoprene / Bonded high quality nylon thread / YKK zipper / Anti-slip seat / Waist cord

U30 SPORT SERIES

UNDERVEST

This super-stretch 2.0mm neoprene undervest is designed to complement and blend with our W30 full-suit and W30 shorty wetsuits, but it works great as an extra layer under any wet or semidry suit.

MATERIAL - 100% microcell limestone CR neoprene, more expensive but in fact the best you can get on the market. Excellent durability and insulation far better than other neoprene qualities.

SEAMS - Flatlock seams with bonded high quality nylon thread.

ANATOMICAL FIT - 3D sculpted suit for maximum anatomical fit. All critical parts concerning mobility have been specifically designed to enhance the freedom of movement.

GENDER - Gender-specific styling – Provides comfortable lift and support for the female diver.

PLASTIC-FREE PACKAGING - 100% plastic-free packaging in accordance with our vision of no more plastic in the oceans.

Men: XS, S, M, ML, L, XL, XXL, 3XL

H2 5/7mm, Art. No. 181-2

H2 5/7mm (without bib), Art. No. 187-2

H2 5/7mm HIGH VISIBILITY

The H2 5/7mm High Visibility Hood features a high visibility orange coloured surface with reflective patches for ultimate visibility and detection in choppy sea conditions. This high-quality anatomical 3D shaped vented hood features a 7mm double layered protection in critical heat loss areas and glideskin seals for the neck and face. Waterproof H2 5/7mm HVH includes the unique HAVS (Hood Air Venting System) which uses one-way valves to vent annoying air build-up in the hood.

3D shaped / 100 % microcell limestone CR neoprene / Glideskin seal / HAVS system / Super-stretch nylon / Bonded high quality nylon thread / Reflective patches / Extend lining

Unisex: XS, S, M, ML, L, XL, XXL

Art. No. 181-4

H2 5/10mm HIGH VISIBILITY POLAR EVOLUTED

The H2 5/10mm High Visibility Hood features a high visibility orange coloured surface with reflective patches for ultimate visibility and detection in choppy and extremely cold sea conditions. This high-quality anatomical 3D shaped vented hood features a 10mm double layered protection in critical heat loss areas and glideskin seals for the neck and face. Waterproof H2 5/10mm HVH POLAR EVO includes the unique HAVS (Hood Air Venting System) which uses one-way valves to vent annoying air build-up in the hood.

3D shaped / 100 % microcell limestone CR neoprene / Polar Evo / Glideskin seal / HAVS system / Super-stretch nylon / Bonded high quality nylon thread / Reflective patches / Extend lining

Unisex: XS, S, M, ML, L, XL, XXL

Art. No. 182-4

H2 5/10mm SANDWICH POLAR EVOLUTED

The H2 5/10mm Sandwich Face Seal Hood features a 10mm double layered protection in critical heat loss areas and sandwich constructed glideskin seal specially designed for the full-face mask user. Waterproof H2 5/10mm includes the unique HAVS (Hood Air Venting System) which uses one-way valves to vent annoying air build-up in the hood. Waterproof created a series of accessories we tagged as "Polar Evoluted", the H2 5/10mm Sandwich Face Seal HAVS model is one of them.

3D shaped / 100 % microcell limestone CR neoprene / Polar Evo / Sandwich face seal / Glideskin seal / HAVS system / Super-stretch nylon / Bonded high quality nylon thread / Reflective logo / Extend lining

Unisex: XS, S, M, ML, L, XL, XXL
Art. No. 182-3

H2 5/10mm POLAR EVOLUTED

During our numerous polar trips, we learned that divers underestimate the heat loss under extreme conditions. Also, new technology allows divers to make longer dives and with this, the hypothermia factor enters the equation. Waterproof looked into this and created a series of accessories we tagged as "Polar Evoluted", The H2 5/10mm hood features a 10mm double layered protection in critical heat loss areas and glide skin seals for the neck and face. Waterproof H2 5/10mm includes the unique HAVS (Hood Air Venting System) which uses one-way valves to vent annoying air build-up in the hood.

3D shaped / 100 % microcell limestone CR neoprene / Polar Evo / Glideskin seal / HAVS system / Super-stretch nylon / Bonded high quality nylon thread / Reflective logo / Extend lining

Unisex: XS, S, M, ML, L, XL, XXL
Art. No. 182-2

H2 ICEHOOD 2mm

A one-size stretchy "over-hood" that covers all exposed skin. Holes for mask and breathing device can be trimmed to perfection by the user. Also provides excellent protection against Jellyfish in infested waters.

3D shaped / 2mm stretchy neoprene / Bonded high quality nylon thread / Extend lining

One size
Art. No. 189-199-00

H30 2mm SPORT SERIES

A comfortable Sport Series stretchy neoprene hood, glued and blind stitched for strength. Descending from the well-known hard-core Waterproof H2 hood series, but adapted for more laid-back use in warmer, less rugged environments.

3D shaped / 2mm stretchy neoprene / Bonded high quality nylon thread / Flat lock seams

Unisex: XS, S, M, ML, L, XL, XXL
Art. No. 329-0

BOOTS

AND SOCKS

BOOTS AND SOCKS

B5 MARINE BOOT

There are several solutions that support drysuits with soft socks on the market. "Rock-Boots" is the common name for the group in general. But there are few boots that also support the insulation factor. The B5 neoprene boot is a sturdy rubber reinforced soft boot with several technical finesses. Like the adjustable ankle strap that secures the foot from slipping inside the boot. With well-defined fin strap stopper this boot will support a firm base for the fin. The upper part of the boot holds an adjustment strap to sit firm on the foot and tightens the area where air and water otherwise would flow.

3.5mm Thoughtex / Insulated / Angled boot shaft / Ankle strap / Top strap / Fin strap ridge / Lightweight

Unisex drysuit boot sizes (cm):

23, 24, 25, 26, 27, 28, 29, 30, 31, 32

Art. No. 637-0

B50 BOOT

Lightweight Sport Series wet boot in 5mm neoprene. A very comfortable and flexible boot in the expected high WP quality. Glued and blind stitched for strength.

Soft 5mm neoprene / Flexible / Robust grip sole

Unisex: XXS, XS, S, M, ML, L, XL, XXL

Art. No. 357-0

B1 SOCK

Multipurpose 1.5mm neoprene socks keep your feet warm and protect against blisters and chafing from your fins. The extra-long stem makes it easy to don and doff your suit.

Unisex: XS, S, M, L, XL

Art. No. 101-0

B2 SEMIDRY BOOT

Keeping your feet protected from cold is essential for overall warmth, your mother told you so didn't she? Waterproof keeps Mom and your feet happy by offering a boot that is built for extreme conditions.

This is a tough 6.5mm semidry boot with an extra-long zipper for easy donning. The heels and toes are strengthened, and the boot has an angled design for less stress while finning. Hypothermia vs Boots. The body reacts to cold and heat by adjusting the blood stream to the external parts of the body, like hands, fingers and feet. Any water temperature lower than the body temp will during the time of the dive affect your core temperature.

Tough 6.5mm semidry boot / Angle boot shaft / Boot-Grip / Extra long YKK zipper / Fin strap ridge / Glideskin / ID-plate

Unisex: XXS, XS, S, M, ML, L, XL, XXL, 3XL

Art. No. 108-0

B50 LOW CUT BOOT

Lightweight Sport Series low cut wet boot in 3mm neoprene. A very comfortable and flexible boot in the expected high WP quality. Glued and blind stitched for strength.

Soft 3mm neoprene / Flexible / Robust grip sole

Unisex: XXS, XS, S, M, ML, L, XL, XXL

Art. No. 336-0

S30 SOCK

Sport Series sock in 2mm neoprene. Long hours of snorkelling in lukewarm tropical water tend to make the skin on your feet soft and more receptive to blisters and chafing from your fins. To help prevent this Waterproof have designed the tropical sock to enable you to enjoy your dive for longer.

2mm neoprene / Flatlock seams / Anti-slip sole / Anti-slip heel

Unisex: XS, S, M, ML, L, XL, XXL

Art. No. 327-0

ULTIMA

THE ULTIMATE DRY GLOVE SYSTEM

Our highly appreciated dry glove system has been a huge success among divers all over the world, for the combination of ease of use and top-notch quality.

ULTIMA
DRY GLOVE SYSTEM

LATEX DRY GLOVE HD SHORT

A comfortable dry glove in latex with an anatomical design, pre-bent fingers and thumb. The hand part of the glove has a rugged heavy-duty surface treatment to enhance grip and durability. Thermo Inner Gloves that ensure a warm and comfortable feel are included. This dry glove works excellent with Ultima Dry Glove System and other systems.

Unisex: S, M, L, XL, XXL

Latex Dry glove HD Short: Art. No. 740-02X-50

Thermo inner glove: Art No. 740-099-00 (One size)

ULTIMA

The Ultima Dry Glove System is easy to mount, dependable and not too bulky, in short an excellent performing system. You can see, hear, and feel when the ring connects properly or when you disconnect it. This system is as close to "fool proof" as it gets! It fits directly in Waterproof drysuits with Integrated Silicone Seals, ISS. It can also be mounted to all drysuits with fixed latex seals to achieve a complete dry glove system.

One set contains two suit rings, two glove rings, O-rings, two silicone covers, a lubricant, and a Combi Tool. Gloves and silicone seals are not included.

Please note! The Ultima Dry Glove System does not fit directly into size 3XL, 3XL/t+ due to larger wrist rings. For these sizes, we recommend the Quick Glove system from SI TECH.

Ultima Dry Glove System: Art. No. 742-900-00

Ultima Soft Dry Glove System: Art No. 742-910-00

LATEX DRY GLOVE HD LONG

The hand part of the glove has a rugged heavy-duty surface treatment to enhance grip and durability. Thermo Inner Gloves that ensure a warm and comfortable feel are included.

The long version of this glove is specially designed as a "stand-alone" glove, sealing latex against latex or skin. If you would like to use this glove with a dry glove ring system, please refer to the Latex Dry Glove HD Short.

Unisex: S, M, L, XL, XXL

Latex Dry glove HD Long: Art. No. 740-02X-00

Thermo inner glove: Art No. 740-099-00 (One size)

WP ACCESSORIES

LIGHT POCKET

Waterproofs new add-on Light Pocket for the pocketless drysuit has its design based on the most recent surveys on divers wishes. Excellent and distinct grip. Generous hook-and-loop fastener lock. Sturdy Cordura® textile, Draining mesh, double tool loops. Mount it yourself or ask for help at your local workshop.

Backside dimensions (towards the suit): 190x290mm
Internal dimensions (WxLxH): 170x260x50mm

Art. No. 689-910-00

WPAD

Advanced expandable pocket for suits with WPAD™ (Waterproof Personal Accessory Dock). Double Velcro layer fastener provides rock-solid anchor hold of the WPAD™ pocket. The WPAD™ pocket comes with a central mounted D-ring and a YKK zipper.

Art. No. 689-300-00

POWER POCKET

An add-on heavy duty expandable Power Pocket for your pocketless drysuit. This pocket is the same model as the pockets on our high-end shell suits. It is a fully expandable pocket which allows you to easily choose between huge capacity or slim profile pockets based upon your needs. Double D-Rings inside, HD-zipper with stainless steel slider. Mount it yourself or ask for help at your local workshop.

Internal dimensions (when expanded). 250x200x70mm

Art. No. 689-900-00

WP DRY BAG

This dry bag is a waterproofed Cordura® bag with taped seams and a folding top seal. To be carried as a backpack during transport.

Art. No. 410-011-00

DRYSUIT SUSPENDERS

Replacement suspenders with logo. Available in two versions.

Suspenders for D1|D1X|D3|D9X | R7
Art. No. 630-001-00

Suspenders for D7|D7X|D10|D8
Art. No. 630-010-00

WP PROTECTION MAT

Insulated and reinforced 4mm mat. Excellent protection from cold, dirt or moist when donning and doffing your suit.

Art. No. 540-900-00

MASK STRAP COVER

Neoprene mask strap cover with fasteners and a reflective logo.

Art. No. 389-010-00

WP HANGER

Designed suit hanger gives your suit the same protection your suit gives you.

Art. No. 411- 000-00

GLOVES

G2 3mm / 5mm

The Waterproofs G2 glove series is constructed with all our knowledge about cold fingers. Excellent fit, enhanced movability, less restriction and squeeze. All in one Glove. This high-quality 3D shaped glove features pre-bent fingers, glideskin interior and a long zipper for easy donning. Polyurethane print in the palm provides a non-slip grip and abrasion protection. GloveGrip makes it easier to put on the second glove.

3D shaped / 100 % microcell limestone CR neoprene / Pre-bent fingers / Extra-long YKK zipper / Anti-slip palm grip / Super-stretch nylon / Bonded high quality nylon thread / Reflective logo / ID-plate

Unisex: XS, S, M, L, XL, XXL

G2 3mm: Art. No. 113-2

G2 5mm: Art. No. 115-2

G2 3mm / 5mm ARAMID

This robust glove is for you who never can resist poking on sharp objects or digging down into the gravel seeking for treasures. Full DuPont™ Kevlar® Fiber covering the palm this G2 Aramid will take any beating a dedicated and devoted diver can expose it to. To match the sturdy Kevlar® palm the upper part is made of stretchy I-Span to enhance flexibility. This high-quality 3D shaped glove features pre-bent fingers, glideskin interior and a long zipper for easy donning. GloveGrip makes it easier to put on the second glove.

Full DuPont™ Kevlar® Palm / 100 % microcell limestone CR neoprene / 3D shaped / Pre-bent fingers / Extra-long YKK zipper / Anti-slip palm grip / Super-stretch nylon / Bonded high quality nylon thread / Reflective logo / ID-plate

Unisex: XS, S, M, L, XL, XXL

G2 Aramid 3mm: Art. No. 114-2

G2 Aramid 5mm: Art. No. 116-2

G2 7mm 3-FINGER POLAR EVOLUTED

During our numerous polar trips, we learned that divers underestimate the heat loss under extreme conditions. We may understand we probably need a thicker undersuit, but when it comes down to the accessories, like gloves and hoods, the options are less. Waterproof looked into this and created a series of accessories we tagged as "Polar Evoluted". This high-quality 3D shaped semidry glove features pre-bent fingers, double glideskin seal and a long zipper for easy donning. Polyurethane print in the palm provides a non-slip grip and abrasion protection. GloveGrip makes it easier to put on the second glove.

100 % microcell limestone CR neoprene / 3D shaped Pre-bent fingers / Extra-long YKK zipper / Anti-slip palm grip / Super-stretch nylon / Bonded high quality nylon thread / Reflective logo / ID-plate

Unisex: XS, S, M, L, XL, XXL

Art. No. 126-2

G2 5mm 3-FINGER

Mittens are warmer than gloves, a fact that is noticeable underwater as well. The Waterproofs G2 glove series is constructed with all our knowledge about cold fingers. Excellent fit, enhanced movability, less restriction and squeeze. All in one Glove. This high-quality 3D shaped glove features pre-bent fingers, glideskin interior and a long zipper for easy donning. Polyurethane print in the palm provides a non-slip grip and abrasion protection. GloveGrip makes it easier to put on the second glove.

3-finger / 100 % microcell limestone CR neoprene / 3D shaped / Pre-bent fingers / Extra-long YKK zipper / Anti-slip palm grip / Super-stretch nylon / Bonded high quality nylon thread / Reflective logo / ID-plate

Unisex: XS, S, M, L, XL, XXL

Art. No. 125-2

G2 1.5mm

This comfortable 3D shaped neoprene glove features full palm with abrasion resistant Amara leather, WaveFlex panels, and Velcro closing for easy donning.

3D shaped / 100 % microcell limestone CR neoprene / WaveFlex panels / Velcro closing / Amara leather palm / Bonded high quality nylon thread

Unisex: XS, S, M, L, XL, XXL
Art. No. 110-2

G50 5mm SPORT SERIES

A well-designed Sport Series 5mm super-stretch neoprene glove. Soft and comfortable with pre-bent fingers for a great fit. Glued and blind stitched for strength and anti-slip palm for extra grip.

Pre-bent fingers / 5mm super-stretch neoprene / Bonded high quality nylon thread / Glued and blind stitched / Anti-slip palm

Unisex: XS, S, M, L, XL, XXL
Art. No. 358-0

G30 2.5mm SPORT SERIES

A comfortable Sport Series stretchy neoprene glove, glued and blind stitched for strength. Descending from the well-known hard-core Waterproof G1 glove series, but adapted for more laid-back use in warmer, less rugged environments.

Pre-bent fingers / 2.5mm super-stretch neoprene / Bonded high quality nylon thread / Glued and blind stitched / Anti-slip palm

Unisex: XS, S, M, L, XL, XXL
Art. No. 328-0

WP DUFFEL BAG

AN EXTREMELY DURABLE 100L BAG

It took us years of development, material sourcing and testing in different environments to develop this extremely durable 100L WP Duffel bag. It is made from the toughest 840D TPU Coated Nylon, which can take almost any beating from sharp rocks, concrete piers and boat decks. High frequency welded seams are 100% waterproof and ensures that the seawater stays either in or out of the bag. The large drain valve helps to quickly drain the bag of any excess water. The extra wide lid gives a good overview and quick and easy access of your gear. The WP Duffel bag can be carried as a backpack using the adjustable padded handles as shoulder straps for the longer walks. The handles can be removed when checking it in on a flight. The internal pocket made of shock absorbing 3D Mesh material protects your dive computer or other sensitive items. The bag is easy to clean and dry out with no absorbing fabrics. All materials, parts and sewing have the same high-end quality you've come to expect from Waterproof.

Quick Neck Kit includes:

1 pc. Quick Neck ring

1 pc. Spanner ring

1 pc. Spanner ring tool

Art. No. 741-106-50

HAIR PROTECTOR

Our Hair Protector is made to protect your hair when putting your drysuit on and off and the tight fit ensures that it stays on. It has a long neck which you can easily don into the neck seal before taking the drysuit off. It is made of washable and fast drying, stretchy Lycra sewn with flatlock seams. The Hair Protector is only intended for donning/doffing and should be removed before diving.

Black stretchy Lycra / 82% nylon, 18% spandex / Washable / Fast drying / flat locked / One size

SILICONE NECKSEAL

For too long latex seals have been the biggest problem in drysuit diving. You are never sure what state they are going to be in until you open your dive bag. They are easy to rip and prone to deteriorate from factors such as the sun/UV rays, chemicals and ozone. The Silicone Neck Seal has set a new industry standard.

With Waterproofs Silicone Neck Seal there is no chemical or environmental sensitivity, and they have 40% better stretch than latex seals. The elasticity makes donning the suit much easier and it seals with your skin more effectively. Since the pressure is lower on the neck the comfort is enhanced during long technical dives and decompression stops.

**SILICONE WRIST SEAL**

For too long latex seals have been the biggest problem in drysuit diving. You are never sure what state they are going to be in until you open your dive bag. They are easy to rip and prone to deteriorate from factors such as the sun/UV rays, chemicals and ozone. The Silicone Wrist Seal has set a new industry standard.

With Waterproof's Silicone Wrist Seal there is no chemical or environmental sensitivity, and they have 40% better stretch than latex seals. The elasticity makes donning the suit much easier and it seals with your skin more effectively. Since the pressure is lower on the wrists your hands will stay warmer. The comfort really is enhanced during long technical dives and decompression stops.
